Too much spacing after wrapped elements:

This test contains examples of text wrapped in different styles: italics, bold, and underline

Some normal text, without any wrappers:

ius sanguinis, 242
ius soli, 241

Text with Italics wrappers:

ius sanguinis , 242
ius soli , 241

Text with Bold wrappers:

ius sanguinis , 242
ius soli , 241

Text with Underline wrappers:

ius sanguinis , 242
ius soli , 241

Remarks: In all three cases where the text is wrapped, the comma is placed too far to the right after the last letter of the text.
